Dear Hiring Manager,

Thank you for the opportunity to apply for the Fullstack Developer role at your company. After reviewing your job description, it's clear that you're looking for a candidate that is extremely familiar with the responsibilities associated with the role, and can perform them confidently. Given these requirements, I am certain that I have the necessary skills to successfully do the job adeptly and perform above expectations.

I am a quality-oriented recent college graduate (Bachelor of Engineering (IT)) from Technological University (Mawlamyine). During the course of my academic career, I also managed to accrue nearly 4 years of work experience. I had the privilege of working for Greentech Innovation Group in a Lead Developer role in my free time, where I learned valuable professional skills such as application development and web design. In both my academic and professional life, I have been consistently praised as hard-working by my professors and peers. Whether working on academic, extracurricular, or professional projects, I apply proven critical thinking, analytical, and multitasking skills, which I hope to leverage into the Fullstack Developer role at your company.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organization. Please contact me at 09792359726 or via email at minchanhtutoo@gmail.com to arrange for a convenient meeting time.

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,

Zin Min Htut Oo
